Is the 9am Wednesday call (and the before/after) something I should sit in on? Let me know, I'm free then if you want me.

Subject: RE: Exide documents

Hello Rizgar,

We have reviewed the documents you directed us to and have a few questions we would like to discuss. I'm thinking the best thing would be to discuss these questions before or after our call that is scheduled for 9 am Wednesday. We could either start the call with a subset of the participants at 8:30 or continue after the call from 10 to 11. Overall we found DTSCs approach consistent with the EPA Lead Handbook, but had questions concerning confirmation sampling for the remediation, how the wind roses were used to determine which neighborhoods were sampled, and the sieving protocol. Let me know what works best for DTSC.

Regards,

Kathleen Salyer

Hi Kathleen, Shortly, We will provide you a list the key document that could be found on Envirostor/DTSC web site.

The PM for corrective action is Peter Ruttan and he can be contacted at 916-255-3630 or at the email above. The project supervisor is Edward Nieto and his phone number is 916-255-3578.

Regards,

Rizgar

Subject: Exide documents

Hello Rizgar,

Can you direct us to the key documents on the Envirostor website for Exide that will

provide us a picture of the sampling strategy, protocols, results and cleanup strategy for the site? We noticed there are quite a few documents uploaded to the site. Can you also provide a technical staff contact that can answer questions from my staff? Thanks

Kathleen Salyer
